COMMENTS:

No new matter is being added by these amendments. Amendments 1A and 1B are supported by text on page 10, lines 20-22, showing the two amino acid templates to which this sequence corresponds (SEQ ID NO:2 and SEQ ID NO:3). Each of these templates terminates in a Leu. The incorrect Lys is present in SEQ ID NO:5 due to a typographical error. The accompanying copy of the Sequence Listing (original filed separately) incorporates this amendment.

All other amendments add the SEQ ID NO where required.
